Employment

Active Interest Media Oct. 2015 - Present

As a **Web Application Developer** I use a variety of computer languages (Ruby, PHP, Javascript) to create software that is viewed and used by millions of users a month. I also maintain part of the companies IT infrastructure in AWS using EC2, EBS, ELB, VPC, IAM, OpsWorks and Cloud Formation.

JMR Solutions Dec. 2014 - Aug. 2015

As the **Lead Web Developer** I used HTML, CSS, PHP, Javascript and MySQL to develop an online solution for a small startup company. I also integrated WordPress and API's in order to keep up with current web standards.

Mobile Tech. Inc. May 2014 - Jan. 2015

As a **Mobile Repair Technician** I installed and repaired all MTI security devices, which included working in partnership with Best Buy, Apple, and Target

New2U Computers Jan. 2014 - Apr. 2014

As a **Computer Technician** I repaired computer systems, and participated in advanced CompTIA training. Additionally, I installed and configured different operating systems including MacOSX. various Linux distributions, and Windows.

Education

B.S in Business Management and Administration

University of Nevada Reno Aug. 2009 - Dec. 2013
